Aspiring Software Engineer with hands-on experience in developing full-stack applications using Java, Spring Boot, React.js, and SQL. Passionate about creating scalable and user-friendly solutions with a strong foundation in problem-solving and software development principles.

Education & Qualifications

Bachelor of Technology in Computer Science

Pragati Engineering College, Surampalem | 2022 – 2026 | CGPA: 8.25

Intermediate (MPC), Andhra Pradesh

Aditya Junior College | 2020 – 2022 | Percentage: 93.9%

SSC, Andhra Pradesh

Little Buds School | 2019 – 2020 | Percentage: 91.1%

Projects

Gold Loan Management System

Tech Stack: React.js, Spring Boot, MySQL, Java, REST APIs, GitHub

- Developed a full-stack Gold Loan Management System using React.js, Spring Boot, and MySQL for managing customer loan records and repayments.
- Implemented secure authentication with role-based access along with loan entry, retrieval, repayment, edit, and delete functionalities using REST APIs.
- Designed a responsive dashboard interface, integrated email notifications using Spring Boot Mail, and collaborated with team members using GitHub branches and pull requests.

ProjectNexus – Project Maintenance & Service Management Platform

Tech Stack: Java, Spring Boot, React JS, MySQL, Spring Security, REST APIs, Git, GitHub

- Developed a full-stack platform for managing project maintenance, support requests, bug tracking, and feature enhancement workflows.
- Implemented role-based dashboards and authentication for Admin, Manager, Developer, and Client using Spring Security and React JS.

Technical Skills

- **Programming Languages:** Java, JavaScript, SQL
- **Frontend:** React.js, HTML, CSS
- **Backend:** Spring Boot, Spring Security, Microservices, REST APIs, JPA/Hibernate, Apache Kafka
- **Database:** MySQL, PostgreSQL
- **Core CS:** Data Structures & Algorithms, OOPs
- **Tools & Platforms:** Git, GitHub, Postman, Docker

Experience

Java Developer Intern - OperaBox (July 2026 - Present)

- Working as a Java Developer Intern on a SaaS platform developed for CA firms, using Java, Spring Boot, PostgreSQL, and AWS.
- Developing and maintaining backend services and REST APIs using Java and Spring Boot.
- Implementing authentication and authorization using Spring Security and managing application data using PostgreSQL.
- Developing and integrating a real-time chat application as part of the SaaS platform.

Certifications

- Java & Python Certifications - InfosysSpringBoard
- Java Programming Fundamentals - edX
- Java Full Stack Certification - AICTE
